This half-day training is designed for Substance Abuse Clinicians and Administrative Staff interested in learning the skills to apply the American Society of Addiction Medicine (ASAM) Placement Criteria tools to level of care placement for consumers with substance abuse issues.

Objectives Include:

- Understand the clinical and cost effective benefits of treatment level of care placement
- Identify the essential skills for effective assessment
- Know the six dimensions utilized to assess patient placement and their importance in determining care
- Demonstrate an ability to use the ASMA PPC-2R and CIWA-Ar assessment tools to identify level of function for our consumer with substance abuse issues
- Recognize the criteria used to differentiate the levels of care
